Explanatory notes

1. This certificate, which is in the format recommended by WHO, certifies the status of the site listed in point 1 of the certificate.
2. The certification number should be traceable within the regulatory authority issuing the certificate.
3. Where the regulatory authority issues a licence for the site, this number should be specified; record “not applicable” in cases where there is no legal framework for the issuing of a licence.

4. Table 1

List the dosage forms, starting materials, categories and activities. Examples are given below.

Example -1

Pharmaceutical Product(s)	Category(ies)	Activity(ies)
Tablets	Cytotoxic	Packaging
Hormone		Production, Packaging, Quality control
Injectables	Penicillin	Repackaging & Labelling
Cefalosporin		Aseptic preparation, Packaging, Labelling

Example -2

Pharmaceutical Product(s)	Category(ies)	Activity(ies)
Starting Material (s)²		
Paracetamol	Analgesic	Synthesis, Purification, Packing, Labelling

Use, whenever available, International Non-proprietary Names (INNs) or otherwise national non-proprietary names.

5. The certificate remains valid until the specified date. The certificate becomes invalid if the activities and/or categories certified are changed or if the site is no longer considered to be in compliance with GMP.
6. The requirements for good practices in the manufacture and quality control of drugs referred to in the certificate are those included in Quality Assurance of Pharmaceuticals: A Compendium of Guidelines and Related Materials, Good Manufacturing Practices and Inspection, Volume 2, 1999, World Health Organization, Geneva, and subsequent updates.
